CAREER SUMMARY

PGDM student specializing in Finance at Fortune Institute of International Business (FIIB) with a keen interest in financial planning, investment research, and portfolio construction. Strong analytical and Excel-based financial modelling skills developed through hands-on internship experience and self-built AI financial planning tools. Looking to build a career in financial planning and advisory by contributing to informed, client-centric decision-making.

EDUCATION

2025 – 2027 Post Graduate Diploma in Management (PGDM), Finance Fortune Institute of International Business (FIIB)
2020 – 2023 Bachelor of Commerce (Hons.) University of Delhi

CERTIFICATIONS

AI for Communication by LinkedIn | Power BI by LinkedIn | Excel by LinkedIn | Statistics Foundation by LinkedIn | Inventory Management Foundation by LinkedIn | Data Analyst Mindset by LinkedIn

INTERNSHIP EXPERIENCE

Corporate Intern, Mutual Fund Distribution & Client Advisory | AnytimeInvest Services Private Limited, New Delhi
May 2026 – Jul 2026

- Conducted structured financial planning discussions with clients, evaluating income, goals, existing investments, and risk appetite to recommend suitable mutual fund and portfolio strategies.
- Performed risk profiling for 50 client relationships, aligning asset allocation and investment recommendations with individual risk appetite and financial goals.
- Applied technical and fundamental analysis frameworks to evaluate equity and mutual fund options for portfolio construction; simulated a ₹25 lakh portfolio management exercise generating a ₹20,000–30,000 return within a week.
- Onboarded 50 clients onto the AnytimeInvest advisory platform and converted 2 to Prime Membership through personalized financial planning guidance.
- Designed Nivesh Compass, an AI-based portfolio planning tool that generates risk-based asset allocation and illustrative return projections for client portfolios, built on gaps observed during client advisory sessions.

Social Immersion Program | Believe in the Invisible Summer 2026

- Aligned with UN SDG 3 (Good Health and Well-Being) and SDG 10 (Reduced Inequalities) through a Social Immersion Program.
- Observed and engaged with children with disabilities (0–8 years), gaining exposure to early intervention, therapy practices, and inclusive care approaches.

ACADEMIC PROJECTS

Nivesh Compass — AI-Based Financial Planning Tool (CIP Project)

- Built and deployed a live interactive web application that generates a risk-based portfolio allocation and illustrative return projections from a user's investment amount, risk appetite, and time horizon.
- Designed asset-allocation logic across equity, debt, gold, and liquid categories mapped to three risk profiles, using long-term historical return ranges (live tool linked via E-Portfolio above).

DuPont Analysis of Indian Battery Companies: Exide, Amara Raja, Eveready & High Energy Batteries

- Performed 5-step DuPont analysis of ROE and ROA across 4 listed battery companies over FY21–FY25, splitting returns into tax burden, interest burden, operating margin, asset turnover and leverage.
- Compared trends within and across firms; identified Amara Raja as the most stable performer, Eveready's ROE as leverage-driven, and one-off income distortions (e.g., Exide FY22).

Comparative Analysis of Focused Equity Mutual Funds: Sundaram, ICICI Prudential & HDFC

- Compared the three funds against Nifty 500 (Jan 2022–Jul 2026, monthly data) on annualised return, volatility, beta, Sharpe, Treynor and Jensen's alpha; HDFC Focused ranked strongest (Sharpe 0.93 vs 0.29 for Sundaram).

Green Capex Project-Finance Model: Waaree Energies 4 GW Solar-Cell Expansion

- Built a project-finance model for a ₹2,754 Cr capacity expansion (debt schedule, DSCR, project and equity IRR, NPV) with price, utilisation and financing sensitivities; base-case IRR sat marginally below cost of capital.
